A nighttime aerial photograph of the Changsha北辰 International Conference Center. The building is a large, modern structure with a distinctive, angular design, situated on a riverbank. It is illuminated with warm lights, and its reflection is visible in the water. In the background, a dense urban skyline is visible, featuring numerous high-rise buildings, some of which are also lit up. A river flows through the foreground, and a bridge can be seen in the distance. The overall scene is a vibrant representation of a modern city at night.
